

## WARNING

Read these materials prior to assembling and using this product

- If you have handle legs attached, do NOT attempt to use the rebounder without first installing the rest of the handlebar pieces.
- The exercise handlebar is not designed to support your entire weight. It is to aid with balance and provide exercise versatility.

## Installing the Handlebar

- 1) Remove two of the existing trampoline leg caps from the locations shown. For safety, if you have a folding trampoline, ensure one of the hinges is between the two HANDLE LEGS, as shown.
- 2) Slide the HANDLE LEGS onto the two trampoline legs.

- 3) Slide each end of the TOP HANDLE into one of the SIDE HANDLES. After lining up the holes, connect each side with a SNAP BUTTON, creating a top assembly.

- 4) Lower the top assembly into the HANDLE LEGS until the holes line up. *Note: You may have to rotate the entire top assembly 180 degrees.* Adjust to desired height before securing with LARGE THUMB SCREWS.

- 5) Place the trampoline leg caps back on their respective legs. Handle and Trampoline legs should all be flat on the ground. Secure the HANDLE LEGS with the remaining SMALL THUMB SCREWS in the positions shown.
